Sage 300 2017

Improve usability, streamline workflow and increase business transparency.

Optimize your workflow - Batch credit card processing is now available, improving efficiency and minimizing errors. You also have the ability to set up regular reminders in the scheduler.

Benefit from smarter transaction processing - Quick preauthorize and quick charge have been added to Sage Payment Solutions, allowing you to process payments faster with just one click of the mouse.

Increase business visibility (Sage 300cloud) - Create and share notes related to customer, vendor, or inventory item, which will be displayed when creating any transaction associated with them. Notes is an intuitive new way of keeping track of your most important, or your most problematic issues, ensuring business transparency across the organization.

Simplify inventory management (Sage 300cloud) - Sage Inventory Advisor Basics provides the ability to quickly create optimal purchase recommendations, helping you easily identify what to buy and when, based on accurately generated forecasts. Improved visibility and smarter purchasing means stockouts are minimized and excess stock is reduced.

Customize your web experience (Sage 300cloud) - Further enhancements to the web screens improve the usability and accessibility of Sage 300cloud.
